

Corporate Responsibility Statement on Environmental Commitment

At Automatic Infotech (AI Technologies Pvt. Ltd.), we recognize our responsibility to minimize environmental impact while delivering IT services with integrity, quality, and innovation. Although we are a zero-manufacturing organization, we commit to operating sustainably across all aspects of our business.

Our approach includes:

- **Energy Efficiency:** Responsible use of electricity for IT equipment and air-conditioning, with an emphasis on energy-saving practices.
- **Sustainable Procurement:** Engaging only essential suppliers, primarily through amazon.in and local vendors, with a focus on minimal and responsible purchasing.
- **Waste Management:** Segregated disposal of waste, in compliance with government collection systems.
- **Water Stewardship:** Reliance on regulated government supply, with internal efforts to avoid wastage.
- **Green Workspaces:** Maintenance of live plants and ergonomically designed desks to support a healthier workplace environment.
- **Information Security & Quality Governance:** Integration of ISO 27001:2022 (information security) and ISO 9001:2015 (quality management) practices, ensuring sustainability is complemented by robust governance, security, and quality standards.
- **Disciplinary Policy:** Disciplinary actions against non-adherence to the best practices aligned with our approach.

We are committed to continuous improvement in environmental practices and to fostering awareness among our employees, clients, and partners—aligning our growth with a greener future.

Pune, India, September 2025
